Weller's Herbaceous Perennials

For Fall and Spring Delivery

Why You will Find Weller's Perennials the Best

Because we make a specialty of growing them to perfection, and make it our point to give you SERVICE, QUALITY AND VALUE. Our plants make REAL ROOTS, and what is more important to a Perennial than a GOOD ROOT SYSTEM?

GENERAL LIST

All plants offered in this list are strong, field grown, two-year-old, transplanted, unless otherwise specified, and biennials. Our Plants bloom the first season. Terms: 30 days; 2% in 10 days; 3% for cash with order. Packing extra at cost. Please state whether we may substitute in case we are short.

Those marked (*) are especially suited for cutting; those marked with (†) are best suited for rockeries. Those printed in larger type are novelties.

In description the flowering period is indicated by the name of the month as May-June, etc.

†POLYCHROMA. This beautiful, rare plant is fast coming to the front, wherever it can be admired. Its unusual combination of flowers and foliage and afterwards its beautifully colored seed does not escape anyone's temptation. It makes a beautiful, formal plant growing about 1 foot high, forming a hemispherical clump covered with lemon-yellow, rose-shaped flowers in May and June. When the flowering period is over, little clusters of pea-shaped seed, coloring to a bright red, are formed at the top of each stem, making a beautiful contrast with the light green-colored foliage.
